ASTM Tables Usage & Procedure of Calculations V. 1.0, 1.1 ...

ASTM tables give the Volume correction factors (VCF) to find the volumes at temperature for which the density is given. Let us say cargo surveyor provided the density at 15 deg C as 0.816 and ASTM table 54B to be used. Let us use the same volumes and temperatures that we have used in our initial example.

ASTM International is an open forum for the development of high-quality, market-relevant technical standards for materials, products, systems, and services used around the globe.

ASTM International - Standards Worldwide

The specification ASTM A123/A123M covers individual steel pieces as well as assemblies of various classes of material. The six material categories covered in ASTM A123/A123M include structural shapes, strip and bar, plate, pipe and tubing, wire, and reinforcing bar. A fabrication can have more than one material category such as a frame assembly.
