This text, part of the McGraw-Hill Series in Social Psychology, is for the student with no prior background in social psychology. Written by Philip Zimbardo and Michael Leippe, outstanding researchers in the field, the text covers the relationships existing between social influence, attitude change and human behavior. Through the use of current, real-life situations, the authors illustrate the principles of behavior and attitude change at the same time that they foster critical thinking skills on the part of the reader.

Provides the foundation for casework practice in Child Protective Services (CPS). Describes the basic stages of the CPS process and the steps necessary to accomplish successfully each stage: intake, initial assessment/investigation, family assessment, case planning, service provision, and evaluation of family progress and case closure. Designed primarily for CPS caseworkers, supervisors, and administrators. Glossary. Bibliography.

Using various research methodologies, such as reviews, case studies, analytical modeling and empirical studies, this book investigates luxury fashion retail management and provides relevant insights, which are beneficial to both industrialists and academics. Readers gain an understanding of luxury fashion retailing, including proper operations and strategic management, which now are the most crucial items on the luxury fashion industry's senior management agenda.

Interrupting Racism provides school counselors with a brief overview of racial equity in schools and practical ideas that a school-level practitioner can put into action. The book walks readers through the current state of achievement gap and racial equity in schools and looks at issues around intention, action, white privilege, and implicit bias. Later chapters include interrupting racism case studies and stories from school counselors about incorporating stakeholders into the work of racial equity. Activities, lessons, and action plans promote self-reflection, staff-reflection, and student-reflection and encourage school counselors to drive systemic change for students through advocacy, collaboration, and leadership.

Learn how to be a success from the business lessons of the Dragons and the financial advice of Evan Davis. Britain's best loved business brains -Duncan Bannatyne, Deborah Meaden, Peter Jones, Theo Paphitis, and Richard Farleigh along with economics expert Evan Davis-divulge the secrets of their success in this essential read. Joining them is James Caan, the new Dragon who will be part of the team in the new season of the television show. James is a multi-millionaire businessman and entrepreneur. Dragons' Den is packed with advice, whether you want to perfect your pitching skills, develop an idea or make more money. The Dragons will look at what's become of the entrepreneurs who entered the Dragons' Den. Some went away emptyhanded but have since become successful. Others won the backing of the Dragons but failed to make their dream come true. The Dragons will show you what should have been done, what should have happened next, and how you too could win their backing and become a business success. This is much more than a TV series companion. It is a solid business read with never-before-heard advice and experiences from the Dragons own business ventures. At last, we'll find out how they became millionaires and their rules for success. This is a unique, accessible ,and useful business read straight from the Dragons' Den.

This book offers new perspectives on the study of Chinese lexical semantics, as well as discourse analysis and cognitive pragmatics based on lexical semantics. The first part focuses on fundamental issues in lexical semantic research, while the second features articles highlighting various aspects of the lexical category systems in Chinese. The third part discusses application-oriented research on lexical semantics. Presenting the latest research in the field, the book is a valuable resource for specialists in Chinese lexical semantics, as well as for researchers and students interested in grammar, theory of lexical semantics, and word/meaning processing.

This volume discusses the phenomenon of internet infidelity by looking at the psychological, social, legal, and technological aspects involved in such behaviour. The rise of social media as well as technological advancements that create 'real' experiences online have made it possible for people to engage in multiple kinds of online relationships. These create concerns about regulating such activities via national and international law, as well as psychological and social concerns of understanding the overall impact of such behaviour. Therefore, this volume, which includes perspectives from across the world, asks and addresses some fundamental questions: Does internet infidelity amount to cheating? How is virtual infidelity different from actual infidelity? What are the social, interpersonal and psychological impacts of internet infidelity? Do people in different cultures view online infidelity differently? What are the myths associated with online infidelity? What are the various intervention measures or therapeutic techniques for treating people who are addicted to cybersex or pornography? The legal dimensions of internet cheating are equally important since adultery is considered as a criminal offence in some countries. As yet, there is no universally accepted definition of internet infidelity and legal perspectives become very important in understanding the phenomenon. This volume includes grand theory approaches as well as detailed case studies and provides unique and multidisciplinary insights into internet cheating. It is ideal for marital therapists, counsellors, criminologists, legislators, and both researchers and students.
