What makes a company truly outstanding? What is the secret sauce of delivering successful results over multiple decades? What is common to Asian Paints, HDFC Bank, Axis Bank, Marico, Berger Paints, Page Industries and Astral Poly? They are Unusual Companies, built by Unusual Billionaires. This book tells the story of these seven companies, handpicked out of 5000 listed on the stock exchange. Built by visionary business leaders, they have delivered outstanding results for a decade and more. How did these companies do it? Why couldn't this be replicated by other companies? What are they doing differently?

Saurabh Mukherjea, bestselling author of *Gurus of Chaos*, delivers an exceptional book with lessons to learn from these seven businesses. Mukherjea tells you why focusing on the core business is central to corporate success and how a promoter giving up control to the top management could be a boon. He also explains how investors can generate market-beating investment returns from identifying companies such as these using a simple set of metrics. Packed with these learnings are riveting corporate stories of how Hindustan Unilever made an aggressive bid to buy Harsh Mariwala 's business, but had to sell a business to him in a few years, or how Page Industries found an innovative way to stop unionization at their manufacturing units. Other stories include the turnaround of Axis Bank and the boardroom coup that led to its chairman 's exit and how Vijay Mallya sold Berger Paints to the Dhingra brothers. This book is mandatory reading for anyone who wants to understand how business is done successfully in India.

Presented in a question-answer format, "Problems and Solutions in Advanced Accounting for CA Intermediate" is specially designed for the students who are preparing for Group-II, Paper 5: Advanced Accounting. The content has been carefully carved out to cover the problems that are most frequently asked in examinations and are aligned to the syllabus. Care has been taken to include problems of simple as well as complex nature and solutions to most of the problems have been provided in a step-by-step manner which makes it easier for the student to understand the concepts and fetch marks. Salient Features: Content is strictly aligned to the topical flow as guided by the syllabus of ICAI. Coverage of Questions from RTPs and MTPs of ICAI examination. Thoroughly updated content includes latest changes in Accounting and the Companies Act, 2013. Questions from previous year ICAI examinations, Revisionary Test Papers (RTPs), Mock Test Papers (MTPs), and other professional bodies

have been incorporated to provide enhanced understanding and extensive practice to the students. Each chapter is further subdivided in various sections to develop the concepts in a methodical manner.

The focus of this book is to introduce Artificial Intelligence (AI) and Machine Learning (ML) technologies into the context of Business Management. The book gives insights into the implementation and impact of AI and ML to business leaders, managers, technology developers, and implementers. With the maturing use of AI or ML in the field of business intelligence, this book examines several projects with innovative uses of AI beyond data organization and access. It follows the Predictive Modeling Toolkit for providing new insight on how to use improved AI tools in the field of business. It explores cultural heritage values and risk assessments for mitigation and conservation and discusses on-shore and off-shore technological capabilities with spatial tools for addressing marketing and retail strategies, insurance and healthcare systems. Taking a multidisciplinary approach for using AI, this book provides a single comprehensive reference resource for undergraduate, graduate, business professionals, and related disciplines.

Language, and Computer Knowledge) with a total weightage of 200 marks. There is a negative marking of one-fourth marks for each wrong answer. Negative Marking -1/4 Conducting Body- Institute of Banking Personnel Selection

Mihir Bose was born in January 1947. Eight months later, India became a modern, free nation. The country he knew growing up in the 1960s has undergone vast and radical change. India today exports food, sends space probes to Mars, and, all too often, Indian businesses rescue their ailing competitors in the West. In *From Midnight to Glorious Morning?*, Bose travels the length and breadth of India to explore how a country that many doubted would survive has been transformed into one capable of rivaling China as the world's preeminent economic superpower. Multifarious challenges still continue to plague the country: although inequality and corruption are issues not unique to India, such a rapid ascent to global prominence creates a precarious position. However, as Bose outlines, this rapid ascent provides evidence that India is ever capable of making great strides in the face of great adversity. Bose's penetrating analysis of the last seventy years asks what is yet to be done for India in order to fulfill the destiny with which it has been imbued. The predictions of doom in August 1947 have proved to be unfounded; the growth of the nation in population and capital has been exponential, and there is much to celebrate. But Bose's nuanced, personal, and trenchant book shows that it is naïve to pretend the hoped-for bright morning has yet dawned.
