iLabs CEH – EC-Council Store

The CEH credential certifies individuals in the specific network security discipline of Ethical Hacking from a vendor-neutral perspective. The purpose of the CEH credential is to: Establish and govern minimum standards for credentialing professional information security specialists in ethical hacking measures.

Certified Ethical Hacker | CERT

The CEH is the Certified Ethical Hacker certification, which is a certification exam offered by the organization EC-Council. Like the OSCP, it is not an entry-level certification and is intended to verify the ability of individuals in the “specific network security discipline of Ethical Hacking from a vendor-neutral perspective.”

When I wrote my “getting started” post on offensive security, I promised I’d write about building a lab you can use to practice your skillset. It’s taken a little while for me to get to it, but I’m finally trying to deliver. Much like the post on getting started, I’m not claiming to have all the answers.

Building a Home Lab for Offensive Security & Security ...

The Certified Ethical Hacker program is the pinnacle of the most desired information security training program any information security professional will ever want to be in. To master the hacking technologies, you will need to become one, but an ethical one!

CEHv11 e-Courseware – EC-Council Store

The CEH designation is one of the most popular credentials available today. The Certified Ethical Hacker certification will fortify the application knowledge of security officers, auditors, security professionals, site administrators, and anyone who is concerned about the integrity of the network infrastructure.
