question to be asked  
is why is visual data  
mining only now being  
- vestigated  
commercially?

Certainly, there have  
been arguments for  
visual data 2 mining  
for a number of years  
– Ankerst and others  
argued in 2002 that  
current (autonomous  
and opaque) analysis  
techniques are

# Read Online Comparative

ine?cient, as they fail to - rectly embed the user in dataset exploration and that a better solution involves the user and algorithm being more tightly coupled.

Grinstein stated that the “current state of the art data mining tools are automated, but the perfect data mining tool is
