Destroying Libya and World Order: The Three-Decade U.S.

In 2011, under the guise of the UN R2P "responsibility to protect" doctrine newly-contrived to provide legal cover for Western intervention into third world countries, and override the UN Charter commitment to prevention of aggression and state sovereignty, the NATO assault led to 50,000 Libyan casualties and the complete breakdown of law and order.

Buy Destroying Libya and World Order: The Three-Decade U.S. Campaign to Terminate the Qaddafi Revolution by Francis A. Boyle (2013-03-01) by Francis A. Boyle (ISBN:) from Amazon's Book Store. Everyday low prices and free delivery on eligible orders.

Destroying Libya and World Order: The Three-Decade U.S.

The purported NATO protection in actuality led to 50,000 Libyan casualties, and the complete breakdown of law and order. And this is just the beginning. Boyle lays out the ramifications: the destabilization of the Maghreb and Sahel, and the French intervention in Mali—with the USA/NATO/Europe starting a new imperial scramble for the natural resources of Africa.

This book tells the story of what happened, why it happened, and what was wrong with what happened from the perspective of an international law professor and lawyer who tried for over three decades to stop it and to promote a better future for Libya and the Libyans as well as improved, peaceful and better relations between them and the United States

It took three decades for the United States government—spanning and working assiduously over five different presidential administrations (Reagan, Bush I, Clinton, Bush II , and Obama)—to terminate the 1969 Qaddafi Revolution, seize control over Libya's oil fields, and dismantle its Jamahiriya system. This book tells the story of what happened, why it happened, and what was both wrong and illegal with that from the perspective of an international law professor and lawyer who tried for over three decades to stop it. Francis Boyle provides a comprehensive history and critique of American foreign policy toward Libya from when the Reagan administration came to power in January of 1981 up to the 2011 NA TO war on Libya that ultimately achieved the US goal of regime change, and beyond. He sets the record straight on the series of military conflicts and crises between the United States and Libya over the Gulf of Sidra, exposing the Reagan administration's fraudulent claims of Libyan instigation of international terrorism put forward over his eight years in office. Boyle reveals the inside story behind the Lockerbie bombing cases against the United States and the United Kingdom that he filed at the World Court for Colonel Qaddafi acting upon his advice—and the unjust resolution of those disputes. Deploying standard criteria of international law, Boyle analyzes and debunks the UN R2P "responsibility to protect" doctrine and its immediate predecessor, "humanitarian intervention". He addresses how R2P served as the basis for the NATO assault on Libya in 2011, overriding the UN Charter commitment to state sovereignty and prevention of aggression. The purported NATO protection in actuality led to 50,000 Libyan casualties, and the complete breakdown of law and order. And this is just the beginning. Boyle lays out the ramifications: the destabilization of the Maghreb and Sahel, and the French intervention in Mali—with the USA/NATO/Europe starting a new imperial scramble for the natural resources of Africa. This book is not only a classic case study of the conduct of US foreign policy as it relates to international law, but a damning indictment of the newly-contrived R2P doctrine as legal cover for Western intervention into third world countries.

A highly readable look at the role of the US and NATO in Libya's war of liberation, and its lessons for future military interventions.

In 2011, former Congresswoman and 2008 Green Party candidate for President, Cynthia McKinney, took a delegation of observers to Libya to monitor NATO's purported humanitarian intervention. Prefaced by Ramsey Clark, this collection of essays includes scholarly and legal analysis, as well as personal accounts by witnesses to the NATO assault on a helpless civilian population it had a UN mandate to protect, and the massive media propaganda campaign that made it possible. It responds to the many questions left unanswered by a complicit mainstream media, such as: "Why Libya, not Bahrain, Yemen or Egypt?" "What was life in Libya like under Qadhafi?" "What is the truth about the so-called "Black Mercenaries"?" "What was the role of Western NGOs and the International Criminal Court?" "What about Africa's Plans for Africa?" "What did it have to do with Libya's independent central bank, its oil, its plans for an African currency, its efforts to free African states from the coils of the Bretton Woods Institutions? Cynthia McKinney and other contributors to this volume were in Libya during the period of the NATO bombardment of Libyan cities, and were among the few independent voices to report on the tragedy.

Following the Arab Spring, Syria descended into civil and sectarian conflict. It has since become a fractured warzone which operates as a breeding ground for new terrorist movements including ISIS as well as the root cause of the greatest refugee crisis in modern history. In this important book, former Special Envoy of the Netherlands to Syria, Nikolaos van Dam, explains the recent history of Syria, covering the growing disenchantment with the Asad regime, the chaos of civil war and the fractures which led to an immense amount of destruction in the refined social fabric of what used to be the Syrian nation. Through an in-depth examination, van Dam traces political developments within the Asad regime and the various opposition groups from the Arab Spring to the present day, and provides a deeper insight into the conflict and the possibilities and obstacles for reaching a political solution.

We no longer live in a world governed by coherent international coordination, a unified NATO bloc or an American hegemon capable of solving collective action problems. The post-Cold War Order is history. 'Libya and the Global Enduring Disorder' argues that Libya's ongoing conflict constitutes an ideal microcosm for examining the salient features of this new era of geopolitics, especially its self-reinforcing nature.

This is a print on demand edition of a hard to find publication. Examines terrorists' involvement in a variety of crimes ranging from motor vehicle violations, immigration fraud, and mfg. illegal firearms to counterfeiting, armed bank robbery, and smuggling weapons of mass destruction. There are 3 parts: (1) Compares the criminality of internat. jihad groups with domestic right-wing groups. (2) Six case studies of crimes includes trial transcripts, official reports, previous scholarship, and interviews with law enforce. officials and former terrorists are used to explore skills that made crimes possible; or events and lack of skill that the prevented crimes. Includes brief bio. of the terrorists along with descriptions of their org., strategies, and plots. (3) Analysis of the themes in closing arguments of the transcripts in Part 2. Illus.

This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible the impact on future international relations. Table of Contents: Introduction 1 Megatrends 6 Individual Empowerment 8 Poverty Reduction 8 An Expanding Global Middle Class 8 Education and the Gender Gap 10 Role of Communications Technologies 11 Improving Health 11 A MORE CONFLICTED IDEOLOGICAL LANDSCAPE 12 Diffusion of Power 15 THE RISE AND FALL OF COUNTRIES: NOT THE SAME OLD STORY 17 THE LIMITS OF HARD POWER IN THE WORLD OF 2030 18 Demographic Patterns 20 Widespread Aging 20 Shrinking Number of Youthful Countries 22 A New Age of Migration 23 The World as Urban 26 Growing Food, Water, and Energy Nexus 30 Food, Water, and Climate 30 A Brighter Energy Outlook 34 Game-Changers 38 The Crisis-Prone Global Economy 40 The Plight of the West 40 Crunch Time Too for the Emerging Powers 43 A Multipolar Global Economy: Inherently More Fragile? 46 The Governance Gap 48 Governance Starts at Home: Risks and Opportunities 48 INCREASED FOCUS ON EQUALITY AND OPENNESS 53 NEW GOVERNMENTAL FORMS 54 A New Regional Order? 55 Global Multilateral Cooperation 55 The Potential for Increased Conflict 59 INTRASTATE CONFLICT: CONTINUED DECLINE 59 Interstate Conflict: Chances Rising 61 Wider Scope of Regional Instability 70 The Middle East: At a Tipping Point 70 South Asia: Shocks on the Horizon 75 East Asia: Multiple Strategic Futures 76 Europe: Transforming Itself 78 Sub-Saharan Africa: Turning a Corner by 2030? 79 Latin America: More Prosperous but Inherently Fragile 81 The Impact of New Technologies 83 Information Technologies 83 AUTOMATION AND MANUFACTURING TECHNOLOGIES 87 Resource Technologies 90 Health Technologies 95 The Role of the United States 98 Steady US Role 98 Multiple Potential Scenarios for the United States' Global Role 101 Alternative Worlds 107 Stalled Engines 110 FUSION 116 Gini-out-of-the-Bottle 122 Nonstate World 128 Acknowledgements 134 GT2030 Blog References 137 Audience: Appropriate for anyone, from businesses to banks, government agencies to start-ups, the technology sector to the teaching sector, and more. Keywords: Global Trends 2030 Alternative Worlds, global trends 2030, Global Trends series, National Intelligence Council, global trajectories, global megatrends, geopolitics, geopolitical changes

"Dazzling and instructive. . . [a] magisterial new book." "Walter Isaacson, Time "An astute analysis that illuminates many of today's critical international issues." "Kirkus Reviews Henry Kissinger offers in World Order a deep meditation on the roots of international harmony and global disorder. Drawing on his experience as one of the foremost statesmen of the modern era—advising presidents, traveling the world, observing and shaping the central foreign policy events of recent decades—Kissinger now reveals his analysis of the ultimate challenge for the twenty-first century: how to build a shared international order in a world of divergent historical perspectives, violent conflict, proliferating technology, and ideological extremism. There has never been a true [world order]. Kissinger observes. For most of history, civilizations defined their own concepts of order. Each considered itself the center of the world and envisioned its distinct principles as universally relevant. China conceived of a global cultural hierarchy with the emperor at its pinnacle. In Europe, Rome imagined itself surrounded by barbarians; when Rome fragmented, European peoples refined a concept of an equilibrium of sovereign states and sought to export it across the world. Islam, in its early centuries, considered itself the world's sole legitimate political unit, destined to expand indefinitely until the world was brought into harmony by religious principles. The United States was born of a conviction about the universal applicability of democracy—a conviction that has guided its policies ever since. Now international affairs take place on a global basis, and these historical concepts of world order are meeting. Every region participates in questions of high policy in every other, often instantaneously. Yet there is no consensus among the major actors about the rules and limits guiding this process or its ultimate destination. The result is mounting tension. Grounded in Kissinger's deep study of history and his experience as national security advisor and secretary of state, World Order guides readers through crucial episodes in recent world history. Kissinger offers a unique glimpse into the inner deliberations of the Nixon administration's negotiations with Hanoi over the end of the Vietnam War, as well as Ronald Reagan's tense debates with Soviet Premier Gorbachev in Reykjavik. He offers compelling insights into the future of U.S.–China relations and the evolution of the European Union, and he examines lessons of the conflicts in Iraq and Afghanistan. Taking readers from his analysis of nuclear negotiations with Iran through the West's response to the Arab Spring and tensions with Russia over Ukraine, World Order anchors Kissinger's historical analysis in the decisive events of our time. Provocative and articulate, blending historical insight with geopolitical prognostication, World Order is a unique work that could come only from a lifelong policy maker and diplomat. Kissinger is also the author of On China.
