"Curious about apples?... Bonnie Kelley Young reads the text slowly so that listeners can absorb all the facts and instructions and peruse the bright illustrations... A good choice for elementary science units and to satisfy requests in the fall for books about apples."-School Library Journal

From the celebrated team behind Creepy Carrots!, Aaron Reynolds and Caldecott Honor winner Peter Brown, comes a hilarious (and just a little creepy) story of a brave rabbit and a very weird pair of underwear. Jasper Rabbit is NOT a little bunny anymore. He 's not afraid of the dark, and he 's definitely not afraid of something as silly as underwear. But when the lights go out, suddenly his new big rabbit underwear glows in the dark. A ghoulish, greenish glow. If Jasper didn 't know any better he 'd say his undies were a little, well, creepy. Jasper 's not scared obviously, he 's just done with creepy underwear. But after trying everything to get rid of them, they keep coming back!

"Narrator Polly Collier is very good. Her strong, clear voice makes her sound much like a teacher, and I appreciated her explanation to young listeners that she would be reading the text portion of a picture book...It's a wonderful book, full of interesting trivia..." - AudioFile

Pumpkins can be baked in a pie. Pumpkins can be carved into jack-o'-lanterns. Pumpkin seeds can be roasted for a healthy snack. But how does a tiny seed turn into a big pumpkin? Read and find out what a pumpkin seed needs to help it grow!

How does a tiny acorn grow into an enormous oak tree? This classic Level 1 Let's-Read-and-Find-Out picture book shows how little seeds become the plants and trees that surround us. This nonfiction picture book is an excellent choice to share during homeschooling, in particular for children ages 4 to 6. It 's a fun way to learn to read and as a supplement for activity books for children. Now rebranded with a new cover look, this book includes a find out more activity section with a simple experiment encouraging kids to discover what a seed needs to grow. Both text and artwork were expert-reviewed for accuracy. This is a Level 1 Let's-Read-and-Find-Out, which means the book explores introductory concepts perfect for children in the primary grades and supports the Common Core Learning Standards and Next Generation Science Standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.

Berries, apples, melons, and grapes; oranges, grapefruits, bananas -- yum! This scrumptious picture book, a companion to The Vegetables We Eat, offers youngsters an inviting, information-packed cornucopia of favorite fruits. Gail Gibbons combines a clear, simple text with her signature illustrations to present fruit facts galore: the parts of fruits, where and how they grow, harvesting, processing, where to buy them, and how to enjoy them as part of a healthy diet.
