The Instant-Series Presents "Instant Creativity" How to Be Creative Instantly! Having problem coming up with great ideas? Struggling with thinking of solutions to problems keeping you awake all night? Feeling stuck with forever trying to find your muse for the next big thing in your magnum opus? What you need is a sudden jolt boost of creativity to get your creative juice flowing and going. "But, but, I'm not creative," you say? Hogwash! All of us have the capacity for creativity and to be creative. Remember when you were a kid when you had tireless energy for curiosity and creativity that adults had to hush you up for your endless crazy ideas and boundless imagination, with their hearts being in the right place to get you to direct your creativity more effectively and realistically...but at the same time restricting it. Now as adults ourselves, we have become more monotonous by life and less active with our creative minds, burdened with responsibilities one would expect from being a grown-up - i.e., work, pay the bills, take care of family, etc. - that when it comes time needing to be creative, we feel like our creativity is no longer there. Well, newsflash, creativity is always there. Whenever you're not feeling creative at a particular point, it is blocked and you only need to find that right spark of inspiration to let it out again. Did you know you could channel your creativity at will? Creativity may come from within, but it can be triggered via external stimuli like movements and sensations, such as sights and sounds...for how often have you listened to a certain music for inspiration or gotten it from simply glancing out at nature? Within "Instant Creativity": \* How to apply science to hack creativity through physical movements to easily force yourself to get creative whenever you need to at a snap.

Entrepreneurs play a vital role in economic development as key contributors to technological innovation and new job growth. We discovered that many people, just like you, have the urge to create an enterprise; to help themselves and to make a difference in this world. While successful entrepreneurs like Steve Jobs and Bill Gates are well publicized, the harsh reality is that most new businesses are prone to failure because they don't have access to accurate information about the entrepreneurial process. This book is a "word map" for guiding you through that process, from refining your business idea and securing capital to a successful launch into the marketplace. There are many types of business ideas to pursue and you are probably better educated than many historic entrepreneurs - both Thomas Edison and Ray Kroc being high school dropouts and both Steve Jobs and Bill Gates being college dropouts. If you hunger to be your own boss and to make a contribution to society with your ideas, then *Business Alchemy: Turning Ideas into Gold* has the information for which you have been searching.
