A massive black-market weapons bazaar, where someone with enough money could outfit a small nation, becomes Stony Man's highest-priority target. And Mack Bolan is determined to be on this year's guest list. Setting out undercover into the African desert, he's about to close in when U.S. aircraft and armored vehicles—operated by men in American uniform—annihilate the crowd. The truth soon becomes clear. A growing syndicate struck the site in disguise to behead the smaller crime organizations and absorb what was left. While all eyes are on the U.S. to explain what happened, Bolan goes on the hunt for the real power behind the bloodbath. And the trail leads to the South China Sea, where a mysterious billionaire has launched an assault on the world's major

ports. Hijacked cargo ships are heading for international cities. Unless Bolan can stop them...

These proceedings are based on the third of a series of symposia devoted to the use of catalysis for the depollution of exhaust gases of motor vehicles. Although catalysts have been used for this purpose for some thirty years, the subject is still very topical because of its economic impact. The increasing number of submitted, accepted and published papers amply attests to this fact.
