The official
Musso website
and the
instruction
manual states
that the Lussino
has a motor
capacity of 200
Watts. However,
beneath the
machine there is
a sign stating

File Type PDF Musso Manual

that it has a
100 Watts
capacity, which
seems very low.
Since it is such
a fast freezing
machine it seems
weird if it
would have such
a low motor
capacity as 100
watts.
