A practical guide to excellent procurement and supply chain management.

Innovation. The word might make you

Download Free Procurement Mojo

think of Silicon Valley. But innovation isn't the sole province of start-ups. They didn't invent it, and they're not always the ones from which we can best learn. As Matt Kingdon argues in *The Science of Serendipity*, it's corporate innovators battling within large, established organisations who are the field's real heroes. Tapping into 20 years of experience on the front lines of innovation—bringing new products and services to market and helping organisations become more creative—Kingdon dissects the ways in which corporations are continually reborn. He looks at the anatomy of innovation, asking: How do time-pressed executives go about taking risks? How do they prepare to see—and seize—opportunity? And how do you place humans, with all of their fears and foibles, at the heart of commercial success? In a conversational,

jargon-free style built on a practitioner ' s observations and anecdotes, *The Science of Serendipity* traces the dilemmas that executives in a wide variety of firms face. It details the steps taken to overcome the issues and get great ideas across the finish line. If you ' re looking for a guide in your fight against the corporate machine, this is the business book for you. Matt Kingdon is the Co-founder, Chairman, and Chief Enthusiast of What If! Innovation Partners. For 20 years, What If! has partnered with the world ' s most successful, forward-looking companies—businesses such as Barclays, Four Seasons, Google, PepsiCo, Pfizer, and Virgin—to galvanise innovation and deliver impact. Its 250 inventors work across the Americas, Europe, and Asia.

The Internet Encyclopedia in a 3-volume reference work on the internet as a business tool, IT platform, and communications and commerce medium.

A radical new management model for twenty-first century leaders Organizations today face a crisis. The crisis is of long standing and its signs are widespread. Most proposals for improving management address one element of the crisis at the expense of the others. The principles described by award-winning author Stephen Denning simultaneously inspire high productivity, continuous innovation, deep job satisfaction and client delight. Denning puts forward a fundamentally different approach to

management, with seven inter-locking principles of continuous innovation: focusing the entire organization on delighting clients; working in self-organizing teams; operating in client-driven iterations; delivering value to clients with each iteration; fostering radical transparency; nurturing continuous self-improvement and communicating interactively. In sum, the principles comprise a new mental model of management. Author outlines the basic seven principles of continuous innovation. The book describes more than seventy supporting practices. Denning offers a rethinking of management from first principles. This book is written by the author of *The Secret Language of Leadership*—a *Financial Times* Selection in Best Books of 2007.

With the current Second Growth and

Transformation Plan (2015-2020), the Government of Ethiopia expects the agro-industrial sector to play key role in economic growth of the Country.

Accordingly, the creation of Integrated Agro-Industrial Parks has been identified as one of the key mechanisms for accelerating the development of the sector and the structural transformation of agriculture. Agro-industrial parks will play a significant role in transitioning Ethiopia from an agricultural-led into an industrial-led economy. In view of that, the development of Integrated Agro-Industrial Parks has been prioritized in Ethiopia ' s national development strategy and four Agro Industrial Growth Corridors have been selected for piloting the establishment of four Integrated Agro-Industrial Parks. The initiative aims at driving the structural transformation of the Ethiopian economy while reducing rural poverty and creating

a better environment for increased investments in agro-processing and allied sectors. Since 1981, FAO has been a strong partner of the Government of Ethiopia towards the achievement of national food security and economic growth goals. FAO is working closely with the Ministry of Agriculture and Natural Resources to empower value chain actors and to promote inclusive, efficient and sustainable agricultural value chains. The present document is the fourth one of a series of detailed analyses of prioritized commodities, which will lead to inclusive, sustainable and stronger agricultural value chains in the Agro-Commodities Procurement Zone of the pilot Integrated Agro-Industrial Park in Central-Eastern Oromia.
