Based upon the text of a seminar devised by the author which has been widely acclaimed as a breakthrough in the teaching and learning of advocacy. It is based on the personal experience of the author and has been described as invaluable as a review for the experienced advocate.;Keith Evans is a member of the English and California Bars and a former head of London Chambers.

This book not only offers a practical and comprehensive guide to effective written advocacy, but provides worked examples drawn from real cases contributed from today's leading and highly successful advocates.

A Modern Legal Ethics proposes a wholesale renovation of legal ethics, one that contributes to ethical thought generally. Daniel Markovits reinterprets the positive law governing lawyers to identify fidelity as its organizing ideal. Unlike ordinary loyalty, fidelity requires lawyers to repress their personal judgments concerning the truth and justice of their clients' claims. Next, the book asks what it is like--not psychologically but ethically--to practice law subject to the self-effacement that fidelity demands. Fidelity requires lawyers to lie and to cheat on behalf of their clients. However, an ethically profound interest in integrity gives lawyers reason to resist this characterization of their conduct. Any legal ethics adequate to the complexity of lawyers' lived experience must address the moral dilemmas immanent in this tension. The dominant approaches to legal ethics cannot. Finally, A Modern Legal Ethics reintegrates legal ethics into political philosophy in a fashion commensurate to lawyers' central place in political practice. Lawyerly fidelity supports the authority of adjudication and thus the broader project of political legitimacy. Throughout, the book rejects the casuistry that dominates contemporary applied ethics in favor of an interpretive method that may be mimicked in other areas. Moreover, because lawyers practice at the hinge of modern morals and politics, the book's interpretive insights identify--in an unusually pure and intense form--the moral and political conditions of all modernity.

Hints on advocacy: intended for practitioners in civil and criminal courts, with suggestions as to opening a case, examination-in-chief, cross-examination, re-examination, reply, conduct of a prosecution and of a defense, etc., and illustrative cases.

Living the good life doesn't require a lot of money or even any faith. The Ten Golden Rules condenses the wisdom of the ancient Greeks into 10 memorable and easy-to-understand rules that, if lived by, can enable modern readers to have rich, meaningful lives. Each chapter examines a rule:1. Examine life2. Worry only about those things under your control3. Treasure friendship4. Experience true pleasure5. Master yourself6 A void excess7. Be a responsible human being8. Don't be a prosperous fool9. Don ' t do evil to others10. Kindness to others tends to be rewarded All chapters begin with a quote from one of the great Greek philosophers who inspired the rule, followed by a story or explanation of the rule and its importance in life, and end with teaching points on which to meditate and reflect. Any reader searching for meaning will return to this simple, slim volume again and again to find tried-and-true wisdom that spans the ages to speak to us today.

First published in 1971, Rules for Radicals is Saul Alinsky's impassioned counsel to young radicals on how to effect constructive social change and know " the difference between being a realistic radical and being a rhetorical one. " Written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute insistence on rational political discourse and adherence to the American democratic tradition.

Offers advice, actions, and strategies for how to pitch a good idea to an influential group and gain their support.
