Do horses make choices? How do they seem to know what people are thinking and feeling? Are horses spiritual beings with a destiny all their own? If so, how is this destiny connected with humanity's future? How does the equine mind compare with the human mind? What do horses have to teach people? And why are women so attracted to horses? These are some of the questions writer and equine therapist Linda Kohanov explores in her extraordinary book *The Tao of Equus*. In it she intertwines the story of the spiritual awakening she experienced with her black mare Rasa with compelling neurological research, cultural history, mythology, and first-hand anecdotes from years of teaching and facilitating equine therapy. She delves into the mental and spiritual processes behind the magical connections people, and women in particular, often experience with horses. She skillfully describes the subtle behavioral nuances horses express and perceive - what she calls the "wisdom of the prey" - as well as a feminine wisdom found in her powerful interactions with horses, bringing to the page subtleties that women riders have intuited for centuries. Blending her extraordinary experience - what some would consider paranormal - with a wide-ranging survey of the phenomena of horse-human communication, Kohanov delivers a ground-breaking work sure to interest both longtime riders and readers interested in the leading edge of animal perception and animal-human communication.

In this powerful follow-up to her groundbreaking work *The Tao of Equus*, Linda Kohanov introduces provocative new theories about the human-horse connection, theories supported by in-depth experience. "Horses," she maintains, "model an embodied spirituality, one that is both fully present in this world and deeply connected to the soul's divine origins." Kohanov explores how these animals support us on both levels, leading us to unexpected realizations about fear, intuition, awareness, empowerment, and above all, authenticity.

In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "The Tao of Equus: A Woman's Journey of Healing and Transformation through the Way of the Horse." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

Linda Kohanov is beloved for her groundbreaking articulation of "the way of the horse," an experiential wisdom known to riders for centuries but little studied or adapted to off-horse use. Now Kohanov takes those horse-inspired insights on the nonverbal elements of exceptional communication and leadership into the realms of our workplaces and relationships. Here we explore the benefits of "nonpredatory power" in developing assertiveness, fostering creativity, dealing with conflict, and heightening mind-body awareness. In "A Brief History of Power," the first part of this far-reaching book, Kohanov profiles cultural innovators who employed extraordinary nonverbal leadership skills to change history, usually on horseback: Winston Churchill, George Washington, Alexander the Great, and Siddhartha Gautama (the Buddha), among others. She also draws on the behavior of mature horse herds, as well as the herding cultures of Africa and Mongolia, to debunk theories of dominance hierarchies, challenge ingrained notions of "survival of the fittest," and demonstrate the power of a consensual leadership in which governing roles are fluid. Kohanov then adapts these lessons into twelve powerful guiding principles we can all incorporate into our work and personal lives. Eloquent and provocative, this is horse sense for everyone who seeks to thrive in the herds we all run in - our communities, careers, families, and friendships.

Includes Assessment Tool for Analyzing Your Leadership Style and Becoming a Better Leader In *The Five Roles of a Master Herder*, Linda Kohanov adapts horse-inspired insights into powerful tools for developing collaborative leadership and managing change. Over thousands of years, Kohanov writes, "master herders" of nomadic herding cultures developed a multi-faceted, socially intelligent form of leadership combining the five roles of Dominant, Leader, Sentinel, Nurturer / Companion, and Predator. The fluid interplay of these roles allowed interspecies communities to move across vast landscapes, dealing with predators and changing climates, protecting and nurturing the herd while keeping massive, gregarious, often aggressive animals together - without the benefit of fences and with very little reliance on restraints. She includes an innovative assessment tool to help you determine which roles you currently overemphasize and which roles you may be ignoring - or even actively avoiding. Through this powerful and surprising book, Kohanov will show you how to recognize, cultivate, and utilize all five roles in the modern tribes of your workplace, family, and other social organizations.

"Far more than a book about how to care for a horse, though it stands out as one of the best on the subject . . . beautiful" (Susan Richards, author of *Chosen by a Horse*). This unique guide to horsemanship incorporates Eastern philosophy to describe how horses understand and respond to the flow of vital energy around them, and how they use this energy, called chi, to communicate with their herd, express dominance, and sense predators. Written by the award-winning author of *The Scalpel and the Soul*, and including forewords by Monty Roberts and Dr. Robert Miller, Zen Mind, Zen Horse shares safe, simple techniques to make you more receptive to your animal's chi, so you can develop a calm and effective training style that will not only help your horse follow commands, but strengthen the spiritual bond between horse and rider.

Explores the bond between horses and people, including trusting instincts, addressing emotions, and releasing negativity, in an account that describes the author's relationship with an abused horse.
